November 12, 2007

To Whom It May Concern:

This is a letter of recommendation and statement of qualifications for Doug Anthony, owner of Appian Paver Systems formerly Stonescape Pavers.

I have had the opportunity to work exclusively with Doug Anthony as he was growing his business in the Las Vegas valley. Doug and his staff worked on many residential and commercial developments for me and have proven on all occasions to be a leader in quality, service and customer satisfaction as well as being competitively priced. Doug has installed pavers for different sizes of projects from driveways, pools and patios to large entries of gated, master planned communities and commercial developments. He has proven to be very dependable in handling all of the varying types of applications.

I would highly recommend Doug Anthony and Appian Paver Systems for any type of paver application. He has proven to be a leader in the paver industry in all aspects and will meet the highest quality standards and scheduling that you may require.

Respectfully,

Thomas P. Devlin
President
